

2023 Street Improvement Project

Issue Date: July 13, 2023

PROJECT DESCRIPTION: The Village of Wauconda 2023 Street Improvement Project (North) is underway with the construction having started on July 3rd. The project consists of storm sewer repairs, curb & sidewalk re-placement, asphalt milling and placement of varying depths of new asphalt. The project scope consists of Wauconda Road, Water Stone Subdivision, Apple Ridge Estates, Apple Country Subdivision, Karl Court & Dato Lane. See schedule below for updates as each phase of the project advances. The Village and HMG Engineers, Inc. will provide weekly updates as they become available to provide the residents and business owners of Wauconda the most up-to-date information.

RESIDENTIAL AREAS

Anticipated Construction Schedule (Week Starting)

7/3	7/10	7/17	7/24	7/31	8/7
Concrete Curb / Sidewalk Storm Sewer & Start of Milling		Milling, Storm & Base Repairs	Storm Complete & Paving	Binder (1st) Paving	Surface (2nd) Paving

WHAT TO EXPECT: Curb and sidewalk improvements are substantially complete in all areas. Punch list and final sidewalk work should be expected after all storm sewer work is complete in the Water Stone subdivision. Asphalt milling started July 13 and will proceed through next Wednesday (moving East to West). Base patching will round out the end of next week to address any subsurface failures in the road base.

2023 Street Improvement Project

Karl Court

WHAT TO EXPECT:

The work involved on Karl Court includes curb replacement, road widening of Karl Court at Bonner Road, base patching, milling and asphalt installation.

All curb replacement is complete. Milling is expected to start next week with base patching planned for the end of next week. A large base patch is pre-planned at the north end of the cul-de-sac to reinforce the road for truck turning purposes.

Dato Lane

WHAT TO EXPECT:

The work involved on Dato Lane includes curb replacement, base patching, milling and asphalt installation.

All curb replacement is complete. Milling is expected to start next week with base patching planned for the end of next week.
